

MPS: More Profitable Sustainability Certification

MPS is the market leader for registration, certification and innovations in the international horticultural sector. Worldwide more than 4,000 companies (growers, wholesalers, retailers) participate in MPS. MPS is active in more than 40 countries.

MPS certificates are known worldwide and acknowledged by international growers and retail operations. The certificates enable businesses to implement sustainability programs with regard to environmental, quality and social aspects. MPS is established in the Netherlands. For companies in other countries, MPS has a network of regional coordinators.

The MPS-ABC certificate is more than just a certificate. It is a unique world standard and works as a benchmark in demonstrating to what extent your operations are environmentally friendly. You can use it to assure your environmental performance and significantly lower your company's environmental footprint. You can obtain a certificate at three different levels, being MPS A+, MPS-A, MPS-B and MPS-C.

BioWorks Product Codes and Ratings

Insect Control	Code	Color
BotaniGard® 22WP	3769	White
BotaniGard® ES	3503	White
Mycotrol® WPO	4006	White
Molt-X®	3626	Green
NemaShield®	990515	White
NemaShield® HB	992008	White
SuffOil-X®	3444	Orange

Disease Control	Code	Color
BotryStop®	4130	White
CEASE®	3473	White
MilStop®	3464	Green
PlantShield® HC	3467	White
RootShield® PLUS ⁺ Granules	3758	White
RootShield® PLUS ⁺ WP	3887	White
RootShield® Granules	3785	White
RootShield® WP	3493	White
RootShield Ag	3985	White
RootShield® Seed Treatment	3986	White
T-22 HC	3987	White

Plant Nutrition/Fertilizers	Code	Color
ON-Gard®	979	<i>The color rating only applies to crop protection agents.</i>
Verdanta® GM-2	981	
Verdanta® RM-1	984
