

# BioWorks Organic Listed Products

## Disease Control - Plant Nutrition - Insect Control

Highly effective biological and organic products specifically manufactured to help protect, strengthen and nourish, while being sensitive to worker and environmental safety.

### Disease Control

#### RootShield® (G and WP) - Biological Fungicide (OMRI Listed)

- Protects roots from many pathogens including *Pythium*, *Rhizoctonia*, *Fusarium*, *Thielaviopsis* and *Cylindrocladium*
- Grows on roots “shielding” them against root damaging fungi
- Promotes a healthier root system increasing root mass potential
- One application provides up to 12 weeks of protection

#### RootShield® PLUS<sup>+</sup> (G and WP) - Biological Fungicide (OMRI Listed)

- Next generation RootShield that now prevents soilborne *Phytophthora*, and improved control of hot season *Pythium* (*P. aphanidermatum*)
- Also controls *Fusarium*, *Pythium*, *Rhizoctonia*, *Thielaviopsis* and *Cylindrocladium*
- Promotes a healthier root system, increasing root mass potential
- One application provides up to 12 weeks of protection

#### CEASE® - Microbial Fungicide and Bactericide (OMRI Listed)

- Proven efficacy against both fungal and bacterial pathogens
- Performs as well as copper-based products
- No phytotoxicity or residues on plant foliage or flowers
- Safe when used with growth regulators
- Safe for beneficial insects and bees

#### MilStop® - Water Soluble Broad Spectrum Foliar Fungicide (OMRI Listed)

- Cures powdery mildews / prevents other foliar diseases
- For use on interiorscape, greenhouse, nursery, woody, herb and field crops
- Potassium bicarbonate-based with added surfactants for superior performance
- Fully dissolves in water; no residues, dries quick and clean

#### BotryStop® - Microbial Fungicide (OMRI Listed)

- Controls *Botrytis*, *Sclerotinia*, and *Monilinia* spp.
- For use on tree fruits, grapes, small fruits, ornamentals, and greenhouse production
- Provides protection to blossoms, fruit, and plant tissue
- Water dispersible granular formulation

# Plant Nutrition

# Insect Control

## Verdanta® EcoVita® - Fertilizer (OMRI Listed)

- Balanced organic fertilizer for general incorporation or topdressing
- MINIGRAN®: Continuous microbial release of organic nutrients
- Use on all organic production including herbs, vegetables, fruits, and ornamentals

## Verdanta® K-Vita® - Fertilizer (OMRI Listed)

- Organic fertilizer for supplemental Potassium nutrition
- MINIGRAN: Continuous microbial release of organic nutrients
- Promotes hardier, stockier plants with higher quality produce

## Verdanta® PL-2 - Fertilizer (OMRI Listed)

- Organic liquid fertilizer for use on all crops
- Used as a base fertilizer or to supplement potassium
- Promotes microbial activity in potting mixes and soils
- Low salt index

## SuffOil-X® - Spray Oil Emulsion Insecticide, Miticide, Fungicide (OMRI Listed)

- Suffocates and kills eggs, larvae, nymphs and adult soft bodied insects and mites
- Controls fungi including powdery mildew
- Unique formulation stays in suspension better than other oils
- Smaller oil particles provide uniform coverage

## Molt-X® - Botanical Insecticide/Nematicide (OMRI Listed)

- Protects against both foliar and soil-borne pests
- Works as an insect growth regulator
- Compatible with most commonly used insecticides, fungicides and fertilizers
- Generally safe on beneficial insects
- Excellent tank-mix or rotational partner with BotaniGard

## Mycotrol® ESO/WPO - Mycoinsecticide

- Controls adult and larval stages of whitefly, thrips, aphids, and more
- Highest spore concentration in a Beauveria-containing insecticide
- Unique mode of action – spores infect directly through the insect's cuticle
- Compatible for tank-mixes with many pesticides
