

BioWorks®
How You Grow Matters™

Rates for Small Volumes

RootShield® Granules:

Recommended rate: 1.5 pounds (#) per cubic yard

1 cubic yard (yd³) = 27 cubic feet (ft³)

1.5 # per yd³ = 0.055 # per ft³

= 0.89 ounces per ft³ (1 ounce = 3 tablespoons)

Approximate measurement

3 tablespoons of RootShield Granules per **1 cubic foot** of potting soil

RootShield® WP:

Root Drench – recommended rate: 3-5 ounces per 100 gallons of water

Approximate measurement

1 – 2 tablespoons per 5 gallons of water

Apply 8 ounces (1 cup) of solution per 6-inch pot
