

GREENSPRING™

Specialty Fertilizer

GreenSpring is an inorganic mineral fertilizer composed of essential micronutrients for use on agricultural and commercial crops. GreenSpring is intended to provide a source of nutrients to aid plant growth, enhance crop nutrition, and improve soil nutrient conditions to support plant growth and yield.

USE AND APPLICATION INFORMATION

Agitate the product thoroughly before opening. This product MUST be diluted in water before use. Use within 4 hours after dilution. Mix at dilution rate on the label.

MIXING DIRECTIONS

Add sufficient water to the clean mixing tank to allow proper agitation. Add the correct amount of GreenSpring to tank and fill to desired volume. Maintain agitation until solution is used. If other pesticides and/or adjuvants are to be added, do so after GreenSpring has been thoroughly mixed.

RECOMMENDED RATE OF APPLICATION

Recommend applying the diluted product at 100 gallons per acre.

For improved soil nutrient conditions to support plant growth and yield.	In furrow/Drip/Drench/ Foliar/Chemigation	4.0 - 8.0 fl oz/ acre
--	--	-----------------------

APPLICATION INSTRUCTIONS

Apply GreenSpring as a drip, in furrow, drench, foliar or chemigation application at the rates indicated in the rate table. Apply a minimum spray volume of 5 gallons per acre.

Apply at planting or early vegetative growth when root initiation is strongest. Make 4 to 8 applications at 7-day intervals. GreenSpring works best with moist soil, active microbial conditions, and during low heat-stress periods.

IN FURROW

Agitate the product thoroughly before opening. Accurately measure desired amount of concentrate and add the recommended dosage to sufficient amount of non-chlorinated clean water in appropriate in furrow equipment tank. Apply product in furrow into the seed trench during planting.

DRIP

Agitate the product thoroughly before opening. Dilute or inject the product to the desired rate from the rate table.

FOLIAR AND SOIL APPLICATION

Agitate the product thoroughly before opening. Accurately measure and add the recommended dosage to sufficient amount of clean water in application tank to achieve the desired coverage.

COMPATIBILITY

GreenSpring is compatible with most commonly used fertilizers, insecticides and fungicides. Read and follow all precautions and limitations on labeling of all products used in tank mixtures. If tank mix data is not available, conducting a jar test is recommended to confirm physical compatibility of the two products.

PLANT SAFETY

GreenSpring has been tested on numerous plant varieties. However, since GreenSpring has not been tested on all plant varieties or in combination with all available tank mixes, BioWorks strongly advises testing GreenSpring on a small number of plants to check for adverse plant side effects before applying to a larger number of plants.

STORAGE AND DISPOSAL

Keep in original closed container at room temperature.

DISPOSAL: Do not contaminate water or food. Do not reuse or refill containers. Recycle this container if appropriate. Dispose or incinerate according to your state's recommended procedures. Follow your local waste disposal agency instructions for any leftover product in the container.

WARRANTY

Seller warrants that this product conforms to the description on this label and is reasonably fit for the purposes stated on this label when used and stored in accordance with the directions for use. This warranty does not extend to use of this product contrary to label directions or under conditions not reasonably foreseeable by the Seller, and Buyer and User assume the risk of any such use. To the extent consistent with applicable law, Seller disclaims all other warranties, express or implied, including any warranty of fitness or merchantability. To the extent consistent with applicable laws, Seller shall not be liable for consequential, special or indirect damages resulting from use or handling of this product, and Seller's sole liability and Buyer's and User's exclusive remedy shall be limited to refund of the purchase price. This product is sold only for uses stated on its label. No express or implied license is granted to use or sell this product under any patent in any country except as specified.
